

FABRIZIO PRATICI MATEU

New challenges is what i am after. My whole life I've been seeking for new things to learn and new people to meet, stablishing deep bonds with both people and education, and in my journey, I've managed to develop flexible habilities and skills in various areas.

OTHER ACTIVITIES

At age 16, I built from scrap pieces and scrap engines, 3 different cars with different designs, one of them being powered only by compressed air.

At age 17, bought my first car from 1983, fully restored it.

Reading as many books as I can is one of my favourite things to spend time on. This is how I managed to acquire most of my current knowledge in different fields.

Music is my passion, currently playing drums, guitar and looking forward to learn saxophone.

Managing my own stock portfolio is one of my most recent and ambitious projects.

Creating a full Web - Mobile application is my current project.

LANGUAGES

English
